

Time With Kethan  
By: Siddharth Shankar

Most of us never had a chance to be with Kethan (and Maya) while growing up. It was good to spend time with Kethan when I came to the US.

We were both fans of Arsenal. Always discussing about the games and talking about it on twitter. We used to live tweet during Arsenal matches and every time we did that, arsenal ended up losing. I remember how chitti used to get arsenal shirts from dollars and pounds in Chennai.

I liked his sense of humor. He used to show us these YouTube videos which would crack everyone up. One of them was Venu Mallesh – I am forever thankful to Kethan for introducing us to this pop legend from India.. We would have watched his legendary hit song – It's My Life – at least a 1000 times in his room.

We missed doing things with him, I regret not visiting him during the last few months, even with all the health issues I never once thought he would leave us. I cannot believe it is going to be 1 year since he left us but I will hold on to the few memories that we had together.
